EXPERIENCE

Optima Learn | Founding Product Designer

On-site, Delhi | Aug 2025 - Present

Led end-to-end UX design for AI-powered web and mobile learning platforms serving **5,000+ users**, translating user research and behavioural insights into intuitive, data-driven experiences.

Conducted **user research, usability testing, UX audits, and feedback analysis** to improve user journeys, information architecture, navigation, and overall usability.

Designed **information architecture, user flows, wireframes, interactive prototypes, dashboards, AI-assisted workflows, and multi-user experiences** for students, mentors, and administrators.

Designed the **Optima Learn mobile application** and built scalable **Light & Dark mode design systems** with reusable components, ensuring accessibility, responsive design, and consistency across web and mobile platforms.

Collaborated closely with founders and engineers, delivering production-ready designs, developer handoffs, and iterative improvements under tight deadlines.

Increased sign-up conversion rate by **22.46%** through improved onboarding flows and UX optimizations

MBA Interview Preparation Platform (AI-based)

Designed and launched a product from scratch within **2 months using rapid prototyping workflows**

Created **user flows, wireframes, and high-fidelity prototypes** booking systems and dashboards

Iterated quickly using **feedback loops and lightweight testing**

Delivered **production-ready designs and prototypes** for seamless engineering handoff

Helped **15+** students convert top B-schools, including **IIM Ahmedabad**

PicknPack Solutions Pvt. Ltd. | UX/UI Designer

Remote, Delhi | Jan 2025 - August 2025

Conducted a full **UX audit of an e-commerce platform**, identifying usability and conversion gaps

Redesigned **information architecture, product flows, and navigation**, improving user journeys

Created wireframes and high-fidelity prototypes to communicate **complex interactions clearly to stakeholders**.

Ran usability tests and iterative improvements based on **data-driven insights**.

Increased user visits by **42.8%**, reduced bounce rate by **30%,** and cut enquiry calls by **80%** through optimized user flows.

Tech Ardor Global Pvt. Ltd. | UX Design Intern

Remote, Bangalore | June 2024 - December 2024

Conducted user research, interviews, and usability testing to identify user needs and validate design decisions.

Designed wireframes and prototypes using Figma for **iterative testing and validation**.

Improved engagement with **2.4x increase in session duration**.

SKILLS

Design

UX Design • UI Design • Interaction Design • Wireframing • Prototyping • Responsive Design • Accessibility • Design Systems

Research

User Research • User Interviews • Usability Testing • Information Architecture • User Journey Mapping • UX Audit • Heuristic Evaluation • Competitor Analysis

Visual Design

Typography • Iconography • Web design • Mobile App Design

Tools

Figma • Claude • FigJam • Miro • Photoshop • Illustrator • Notion • Framer • Relume • Stitch • Canva

Other Skills

Cross-functional Collaboration • Stakeholder Management • Design Documentation • Developer Handoff • Design Thinking • Rapid Iteration

EDUCATION

Certifications

- Google UX Design Specialization
- Build Dynamic User Interfaces (UI) for Websites (Google)
- Conduct User Research And Early Testing (Google)

Graduation

- Bachelors of Science | Botany Honours (2018 - 2021)

Schooling

- DAV Centenary Public School | 12th | 2016
- DAV Centenary Public School | 10th | 2014

PUBLICATIONS

- How I ran my first usability test and what I learned along the way.
- How AI is changing the future of UX/UI Design
- Redesigning PIcknPack: A UX/UI case study for E-commerce website

PERSONAL INTEREST

- UX case studies and product psychology
- Mentoring early-stage designers
- Exploring AI-native product design workflows
